## BACKLOG OVERVIEW

PC members can [click here](#) for the an issue status and planning overview

| Bugs | Not Bugs |
|------|----------|
| 18%  | 82%      |

Percentages might not add up 100% because of rounding

| GitHub Milestone Categories     | Number | %   |
|---------------------------------|--------|-----|
| Agreed for v3 API               | 3      | 2%  |
| Yet To Decide / to be decided   | 50     | 38% |
| Consensus Reached               | 0      | 0%  |
| Consensus Finalized             | 1      | 1%  |
| Needs Implementation Discussion | 30     | 23% |
| Ready for Implementation        | 35     | 26% |
| Scheduled                       | 14     | 11% |

## LAST THREE MONTHS

There is generally one release per month. Urgent bugs can be fixed with an emergency point release. There is no scheduled release during December.

Some operations work is not included in the GitHub issue summary.

| Issues Closed      |   |
|--------------------|---|
| Major enhancement  | 1 |
| Other enhancements | 4 |
| Bugs               | 9 |

|              |    |

## RELEASE OVERVIEW

**Next Release (October, 2.73.0)**

|                                      |  |  |
|--------------------------------------|--|--|
| <a href="#">#1805</a>                | <b>Major enhancement</b><br>SLIs for PeeringDB load time   | We are measuring key service level indicators to better understand user experience |
| <a href="#">#1755</a>                | <b>Noteworthy minor enhancement</b><br>Expand OAuth availability to accredited organizations without a network | Orgs without a networks can now benefit from PeeringDB OAuth                       |
| peeringdb-py<br><a href="#">#113</a> | <b>Noteworthy bug fix</b><br>Failure to start if invalid 'failed_entries.json'                                 | peeringdb-py required this file, which is not strictly necessary                   |

### Schedule for major issues

| Month, version   | Major feature                                     | Narrative   |
|------------------|---|---|
| November, 2.74.0 | Let users opt in to new web features              | The iterate and expand issue has not been approved, so this is a substitute |
| December         | NO RELEASE  |   |
| January, 2.75.0  | Changes (possibly operational) arising from SLIs. | No issue created yet.   |
| February, 2.76.0 |   |   |

### Main agenda

- Status of containerization. [grizz@20c.com](mailto:grizz@20c.com)
  - Almost complete. Running on beta and doing final changes for www.
  - Will be able to manually scale easily, and can add autoscaling relatively easily.
- Quick review of survey responses. [Leo Vegoda](#)
  - An internal report and a blog post will be produced.

| Number                | Title  | Summary                         | Consent Finalized?                         |
|-----------------------|--|---------------------------------|--|
| <a href="#">#1852</a> | Network creation only tests primary e-mail address against IRR records (Issue #1852) | Review network creation process | Need to check whether we can recreate this |
| <a href="#">#1855</a> | No way to check if an API key has been created read-only or not                      | As title                        | Clarified this is for user keys            |
| <a href="#">#1856</a> | Adding FlowSpec as a supported protocol of Route Servers                             | As title                        | Need evidence of use before adding this    |
| <a href="#">#1857</a> | Add "Facility Presence" to Carrier Advanced Search                                   | As title                        | Need clarification of purpose              |

### Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

| Number                | Title   | Summary  | Consent Finalized?               |
|-----------------------|---|----------|----------------------------------|
| <a href="#">#1849</a> | Add rate limiting for unauthenticated web pages queries | As title | (Already at Consensus Finalized) |
|                       |   |          |                                  |

### Informational

No action required. Members should be aware that these new issues have been agreed since the last meeting.

| Number                | Title   | Bug? | Summary  |
|-----------------------|---|------|----------|
| <a href="#">#1847</a> | Carrier is missing numbers in overview if there is none | Yes  | As title |

|                       |   |     |          |
|-----------------------|---|-----|----------|
| <a href="#">#1850</a> | Search for network name doesn't work if it contains only digits | Yes | As title |
| <a href="#">#1851</a> | tutorial webserver is broken                                    | Yes | As title |
|                       |   |     |          |

### AOB

- We might want to start asking people without a real name in their GitHub user description some details to better understand their rationale and the issue's overall utility.
