RELEASE OVERVIEW

Next Release (August, 2.84.0)

This release will include changes to the codebase to get ready for AI agent driven development. We'll implement the Object Metadata and Delete an IX when last prefix is removed designs previously reviewed.

There will also be a major update or replacement to the software used for the docs site.

Schedule for major issues

Month, version	Major feature	Narrative
October 2.84.0	Implement designs for: - Object Metadata — and a Departure Signal on netixlan - Delete an IX when its last prefix is removed (with confirmation)	These are two multi issue designs to provide metadata values for joining/leaving an exchange, PMTU values and so on, and deleting an exchange when its last prefix is removed.
November 2.85.0	Add and MCP server and skills	Encouraging users accessing PeeringDB via AI systems to make efficient queries means a better experience for everyone.
December	No deployment in December	
January 2.86.0	Research how to reduce abusive search traffic	

Main agenda

- Matt Griswold introduces the new operations dashboard and explains access controls.
- Initial thoughts of [API v3 draft spec](#)

Number	Title	Summary	Consent Finalized?
#2030	Automated production of additional statistics	Document with questions and ideas for discussion	YES

Number	Title	Summary	Consent Finalized?
#2047	Feature parity: facilities and campuses to show same summary data	Add counts for exchanges and networks to campus overview	YES
#2049	Passkeys are registered as non-discoverable credentials	Does this count as a bug? Request for PeeringDB to update Passkey handling	Need more info from reporter. Will investigate.

Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

Number	Title	Summary	Consent Finalized?
#2004	About page links should go to the same place	The about pages on the main and docs site should really be a single page	YES
#2003	Improve UI	It would be nice if we could have the profile settings reorganised in a nice tabbed view	YES
#2000	Catch empty responses from rdap.org when registering a new ASN	Handle RDAP (RIR/NIR source of ASN registration data) failures better	YES

Informational

No action required. Members should be aware that these new issues have been agreed since the last meeting.

Number	Title	Bug?	Summary
#2045	Add MCP server and skills	No	As title. Scheduled.
#2046	Discrepancy between web results and CSV download	Yes	As title. Scheduled.
